### **National Website Update: Member Login to Access Resources and E-shop**

The national website was previously open to the public, with every resource members spent hours developing and enhancing available for anyone to access and copy for their own purposes. With the open site, the League could not add items that contained member contact information, such as the skills bank. As such, the national executive/board has decided to put the resources in an area only accessible to members. It was a complicated task involving working with the developers who created the e-shop. The work is now complete, and members can log in to shop and browse through the resources that are so valuable to members.

To access the e-shop and resources, click the “Member Login” button. You will be directed to a screen that asks for your Member ID. You may have received a membership card at some point with this number printed on it. If you do not have your card or know your number, please ask your council vice-president or membership coordinator for your number, as they have those records.

- If you are already registered with the e-shop, you may use the same password.
- If you have not registered with the e-shop, please select the “click here” link below the “Sign In” button. The system will verify your membership and ask you to set a password.

Once you sign in, the menu bar will update, and the Resources tab will be available to use.

If you have difficulties signing in, please contact national office at (204) 927-2310, and someone will guide you through the process.

**Action required by all councils with websites:**

Please remove all national League resources that you have made available to members by posting them on your website. Instead, use a link to direct people to the Member Login page on the national website, where members can log in and access the resources and most current revisions.

Kind regards,

Dorothy Johansen  
National Secretary-Treasurer  
On behalf of the National Executive
